

## Future tense

- Most verbs form their future very simply, by adding a sigma to the present stem, and then using the present tense endings:

παύσω
παύσεις
παύσει
παύσομεν
παύσετε
παύσουσιν

- NB some consonants 'hide' the sigma, eg κ → ξ, π → ψ

## Second future

- verbs whose stem end in λ, μ, ν, ρ **DO NOT** form their future with a sigma
- instead they take the same endings as ε-contract verbs in the present

μενῶ	(μενέ-ω)
μενεῖς	(μενέ-εις)
μενεῖ	(μενέ-ει)
μενοῦμεν	(μενέ-ομεν)
μενεῖτε	(μενέ-ετε)
μενοῦσιν	(μενέ-ουσιν)
